

RayBrid

Matte Maker

Mask Generating Service

Source

High Quality image mask

Matte Maker is a service that generates an image mask for composition.

Our image processing provides a more natural and higher quality image than ever before. With the Matte Maker service, you will be able to materialize high-end image compositions.

Shoot anywhere

No green/blue screen is needed. Outdoor scenes should be shot under the sun.

It is the best and simplest way to get a more natural finish.

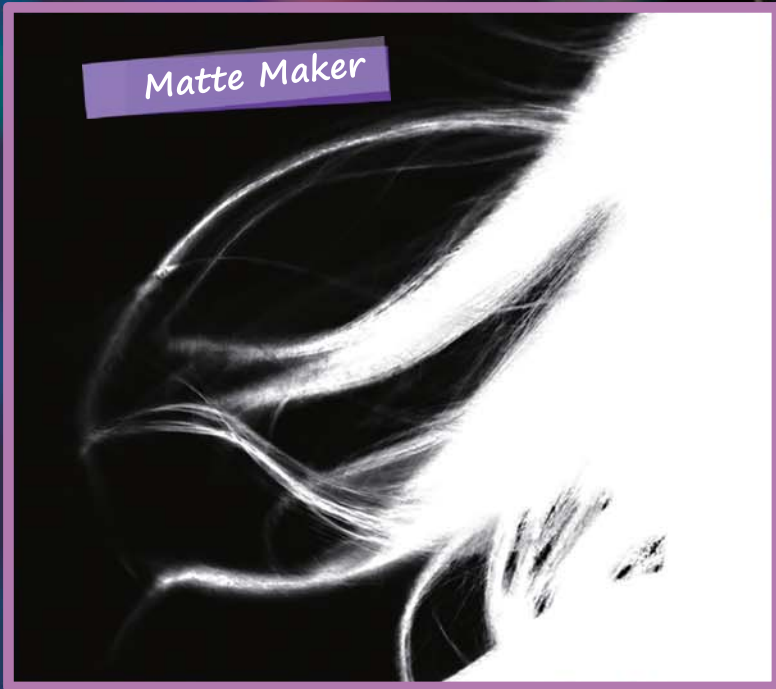

Result

4K Ready

Matte Maker service is resolution independent. It is also applicable to still images such as posters, billboards etc.

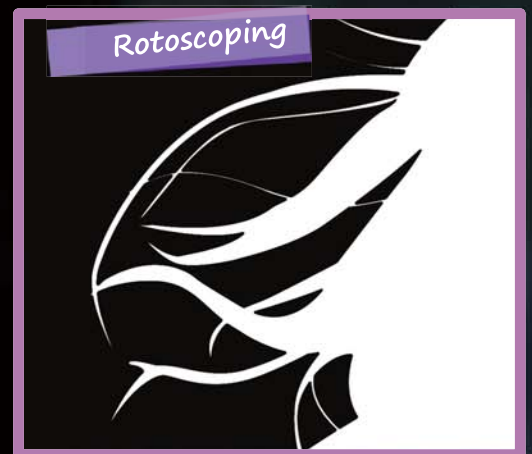

Matte Maker Quality

Matte Maker

- ✓ soft and natural edge
- ✓ reproduction of fine detail
- ✓ real motion blur
- ✓ real focus blur

Rotoscoping

- ✓ hard edge
- ✓ lack of fine detail
- ✓ post effect motion blur
- ✓ post effect focus blur
